MICAH YEAGER

Full-Stack Developer

Hagerstown, Maryland | micahyeager.com | micah@yeagers.co | +1 (301) 573-4965

A technical leader with 10 years of real-world experience designing, building, and implementing web apps that are beautiful, functional, and accessible.

WORK EXPERIENCE

INNOVATIVE, INC.

Solutions Architect | Jun 2017 - Current

- Built internal web apps and automations to manage customer networks, endpoints, and security at scale, reducing time spent managing these by 30% and eliminating user error.
- Wrote and maintained internal technical documentation for technical teams, leading to a 15% increase in efficiency when using and deploying services for customers.
- Identified and implemented coding standards and templates for new development projects, reducing time spent creating new projects by 60%.
- Analyzed and migrated locally-hosted web apps to CI/CD-controlled K8s clusters and serverless environments, resulting in 90% less downtime and 70% less time spent managing deployments.
- Developed a dashboard to unify company activity optics, resulting in a 30% increase in satisfaction with internal communication and a 10% decrease in time spent investigating planned system-down events.

HUMMERT IT

Owner | Mar 2016 - Jun 2017

- Developed and maintained affordable, static public websites for local small businesses, drastically improving discoverability for their prospective customers.

LIFE PACIFIC UNIVERSITY - VIRGINIA

IT Services | May 2014 - Jun 2017

- Redesigned, developed, and migrated the university branch's public-facing main website, leading to a 35% increase in user engagement.
- Conducted usability testing with users to improve data input for the university branch's CMS, reducing manual time spent processing student applications by 5%.
